

# GRAND LEGEND SPC FLOOR CARE & MAINTENANCE

Grand Legend SPC Waterproof floors are durable, but like all interior floor coverings require care periodically to look their best and prevent problems before they occur. The frequency will depend on your lifestyle and traffic on the flooring over time.

## Routine & Preventive Care Do's and Don'ts

- Sweep, dust mop or vacuum (air suction only) regularly to remove loose dirt and grit. Do not use treated dust mops.
- Do not use a steam cleaner on Grand Legend SPC floors.
- Clean up spills or pet accidents immediately.
- Clean using Rejuvenate Floor Cleaner for LVP products; do not use harsh cleaners or chemicals, or abrasive scrubbing tools.
- Avoid exposure to long periods of direct sunlight. Close blinds or drapes during peak sunlight hours. Grand Legend SPC flooring subjected to excessive heat and light is subject to thermal degradation.
- Maintain consistent room temperature of 65°- 85° F and relative humidity levels of 35%-55% at all times.
- Do not expose Grand Legend SPC flooring to temperatures exceeding 110° or temperatures below 32°F.
- Do not expose Grand Legend SPC floors to acetone or other harsh chemicals such as oil or petroleum-based products. Do not track asphalt-driveway sealer or automobile oil onto Grand Legend SPC flooring.
- Ensure that chairs or furniture with casters or wheels are easy swiveling with large surface non-staining casters and suitable for resilient floors use. Do not use ball type casters as they can damage the floor.
- Protective mats and chair pads are required under office chairs or furnishings with rolling casters.
- Ensure that frequently moved furniture is protected with felt pads to avoid scratching the floor. Heavy furniture and appliances should be equipped with non-staining large surface floor protectors. Use floor protectors under furniture.
- Use walk off mats at entrances to prevent dirt and grit from being tracked on to the floor.
- Protect flooring in the kitchen area with a high quality rug in areas subject to hot oil spills or splatter.
- Use non-staining mats only. Rubber may discolor the floor.
- Do not use electric brooms with hard plastic bottoms without padding as these may damage the flooring.
